

## **Pieksämäen lukio (E10012748 - FI)**

Pieksämäki Upper Secondary School is providing comprehensive upper secondary general education. As the only upper secondary school in the town of Pieksämäki, it offers versatile skills for studies based on the upper secondary school curriculum for young people in the region. We have about 200 students aged 16 to 19 and 15 teachers in our school. Our municipality is situated in the triangle of three bigger cities – Jyväskylä, Kuopio and Mikkeli – and we aim at providing the youngsters of our own municipality a better option to study in the home area. Our school strives to educate young, diligent, well-informed and well-balanced young people who are well equipped to meet their aspirations. Our school has been running some Erasmus KA2 projects and we feel that Erasmus collaboration has had a very positive impact on our school community.
