

The first TPM was arranged in Finland in November 2022. There were two teachers from each partner school to outline our future steps in this project. During the meeting we discussed the project management and practices and went through the application form and the feedback to the application. The feedback gave us some suggestions to clarify the project and the activities to be carried out during it. We created the project timetable and agreed on the dates and venues of the forthcoming LTTAs, discussed the outlines of Inclusion and Diversity Strategy and Project Digital Strategy, and decided the type of Teachers' Good Practices Book and the activities included in it. In addition to discussing and planning the project management practices, we also created a joint plan of the concrete steps to start the project with local activities in schools. The meeting was not only hard work, but we also had time to learn to know each other, enjoy Finnish nature and visit our neighboring city Jyväskylä.
